Lysonome

What is Hexylresorcinol?

Hexylresorcinol is a synthetic organic compound widely used in cosmetics for its multifunctional skin benefits. Inspired by natural alkylresorcinols found in rye bran and other cereals, it is typically produced by organic synthesis for skincare and cosmetic formulations.

CLINICALLY PROVEN TO BE FOUR TIMES MORE EFFECTIVE THAN HYDROQUINONE.

01 Skin brightening & dark spots

Inhibits tyrosinase and suppresses melanin production to reduce hyperpigmentation, blemishes and discoloration while evening skin tone.

02 Antioxidant protection

Neutralizes free radicals and protects skin from oxidative stress linked to aging and pigmentation.

03 Astringent & anti-inflammatory

Promotes a more even complexion and supports skin barrier health.

04 Anti-glycation & regeneration

Helps prevent glycation, supports firmness and clarity, stimulates growth factors, and promotes cell renewal and wound healing.

ADVANCED REGENERATION. VISIBLE RESULTS.

Lysonome

Advanced Regeneration. Visible Results.

THE HEXA LINE

Four formulas. One brightening system.

At week 12: 45% improvement in skin brightening, 27% in evenness, and 25% in fine lines and global facial appearance.

LYSONOME HEXA

HEXA

Brightening skincare line

Four targeted formulas that suppress melanin production, relieve blemishes, improve skin tone and improve the skin's overall complexion.

ADVANCED REGENERATION. VISIBLE RESULTS.

Lysonome

Four targeted formulas. One brighter, clearer ritual.

Each formula pairs Hexylresorcinol with focused ferment extracts, antioxidants, hydrators and skin-renewing ingredients.

Step 1

Hexa Infuse Complex

Mix-to-activate complex | 300 mg + 20 mL

KEY INGREDIENTS

Hexylresorcinol, Birch Juice (Betula Alba Juice), Hippophae Rhamnoides Fruit Extract, Hydrolyzed Collagen, Lactobacillus Extracellular Vesicles, Multi-Peptide Complex, Vitamin B3 (Niacinamide)

BENEFITS

Keeps skin clear and lively with rich moisture, reduces pigmentation and hyperpigmentation, improves hydration and barrier function, promotes skin regeneration, and enhances firmness and elasticity.

Step 2

Hexa Glow Serum

Brightening serum | 30 mL

KEY INGREDIENTS

Hexylresorcinol, Alteromonas Ferment Extract, Amino Acid Complex, Beta-Glucan, Glutathione, Oryza Sativa (Rice) Bran Water, Vitamin B2 (Riboflavin), Vitamin B3 (Niacinamide)

BENEFITS

Promotes skin-cell regeneration and wound healing, enhances hydration, brightens, protects the skin barrier, provides antioxidant and anti-aging protection, reduces redness and supports collagen repair.

Step 3

Hexa Aster Cream

Whitening cream | 50 mL

KEY INGREDIENTS

Hexylresorcinol, Alteromonas Ferment Extract, Hydrolyzed Collagen, Methylpropanediol, Multi-Peptide Complex, Vitamin A (Retinal), Vitamin B3 (Niacinamide), Vitamin C (Ascorbic Acid), Vitamin E (Tocopheryl Acetate)

BENEFITS

Provides firm moisturization and nutrition to dull skin, reduces hyperpigmentation, enhances radiance and hydration, improves texture, protects the barrier, reduces irritation and supports skin healing.

Step 4

Hexa Sparkling Powder Cream

Sparkling powder cream | 10 g

KEY INGREDIENTS

Hexylresorcinol, Beta-Glucan, Citrus Paradisi (Grapefruit) Fruit Extract, Glutathione, Hydroxyacetophenone, Lactobacillus Extracellular Vesicles, Lecithin, Propanediol, Vitamin B3 (Niacinamide)

BENEFITS

Melts at skin temperature and is naturally absorbed, maintains elasticity and a clear complexion, repairs the barrier, hydrates, brightens and evens skin tone, controls oil, reduces blemishes and improves texture and clarity.
